Project Name	Project –Plasma Donor Application
Maximum Marks	2 Marks

Problem statement:

I am Plasma donor	I am trying to Try to find plasma donor quickly	but Can't update user's current	because User don't give the location access	Which makes me feel Covid -19 crisis deaths
--------------------------	--	--	--	--

Problem Statement (PS)	I am	I'm trying to	But	Because	Which makes me feel
PS-1 During COVID 19 crisis In some situation it was very difficult to find the plasma donor, check whether the donor was infected previously and was recovered,	Plasma needed user	Try to Find the plasma donor very quickly by finding the donors current location	App users not notify the plasma donate events and half of the users have a geographical restrictions	The applications are not user friendly and not available in regional languages	During covid-19 crisis many people died because of not get the plasma donors who was recovered from covid immediately

and which donor is eligible to donate plasma was a challenging task. As the plasma therapy was one of the ways to treat the infected patients getting the donor details played a major role.					
PS-2 People who need plasma are increasing day by day. People who have diseases like anaemia or people who have gotten into accidents and run out of blood need constant supply of blood to sustain their life and there is not enough blood available for them.	Plasma donor	Try to donate their plasma	Do not get the plasma donate event details through the plasma donor app.	Users don't share the event details in any social media or donating apps.	Plasma donor applications which I weren't visited having user friendly features.
